## Comprehensive Community Services

### Referral Form/Physician Prescription

---

#### **What is Comprehensive Community Services (CCS)**

Comprehensive Community Services provides programming to people of all ages – youth to elderly – living with either a mental illness and/or substance use disorder. CCS is for individuals who need ongoing services beyond occasional outpatient care, but less than the intensive care provided in a hospital setting. The individual works with a dedicated team of service providers to develop a treatment and recovery plan to meet the individual's unique needs and goals.

#### **How can CCS help?**

CCS is a **voluntary** Medicaid reimbursable program designed with the intention to help individuals coping with mental health, emotional disturbances and/or substance use disorders recovery from their conditions and attain the lives they desire.

CCS participants can leave or re-enroll in CCS at any time they desire (as long as they are still eligible).

#### **What does CCS offer?**

CCS is a program that services both adults and children. Every individual who participates in CCS works with a Care Coordinator to design a recovery plan intended to help build the skills needed to improve health, promote wellness, attain personal goals, and enhance overall quality of life. For more information regarding CCS, the enrollment process, and available services, please contact the Eau Claire County Centralized Access Program at (715) 839-7118.

#### **Is CCS the right program for my Client?**

- ✓ Does your Client or their child have Medicaid?
- ✓ Is your Client or their child coping with a mental health, emotional disturbance, or substance use disorder (or a combination)?
- ✓ Does your Client or their family (for children) want help?
- ✓ Is your Client or their family ready to work with someone to develop a plan and actively participate in the goals and services they select?
- ✓ IF you answered "YES" to the previous questions, CCS may be the right program for your Client.
