

**Eau Claire County Planning and Development**  
**LAND CONSERVATION DIVISION**  
Eau Claire County Courthouse - Room 3344  
721 Oxford Avenue  
Eau Claire, Wisconsin 54703-5212  
Phone: (715) 839-6226 • Fax: (715) 831-5802

According to Eau Claire County Code Ch. 17.04 Agricultural Performance Standards and Manure Storage, a manure storage facility shall be properly closed when manure has not been added to or removed from the facility for a period of 24 months. Manure storage facilities shall be closed in a manner that will prevent future contamination of groundwater and surface waters. A permit from the Land Conservation Division is required in order to properly close a manure storage facility.

However, the owner or operator may retain the facility for a longer period of time by demonstrating to the Land Conservation Division that all of the following conditions are met:

- The facility is designed, constructed, and maintained to minimize the risk of structural failure of the facility and to minimize leakage of the facility in order to comply with groundwater standards. The levels of materials in the storage facility may not exceed the margin of safety level. Storage facilities that are constructed or significantly altered on or after January 1, 2011, shall be designed and operated to contain the additional volume of runoff and direct precipitation entering the facility as a result of a 25-year, 24-hour storm.
- Retention of the facility is warranted based on anticipated future use.

Owner/Operator Name:		
Address:		
City:	State:	Zip:
Facility Location: Sec. ____, T__ N, R__ W, Town of _____		
Computer Number: ____ - ____ - ____ - ____	Storage Capacity:	
Year Constructed:	Construction Permit Number:	
Liner Type: <input type="checkbox"/> Compacted Soil <input type="checkbox"/> Geomembrane <input type="checkbox"/> Geosynthetic Clay <input type="checkbox"/> Concrete		
Transfer System:		

By signing below, I agree that all the above is true. Furthermore, I agree to, upon future use of the above storage facility, take the necessary steps to verify adequacy of the above manure storage facility and to notify the Land Conservation Division.
